Rhodes-Offutt

A charming wedding was solemnized on Thursday afternoon at 5 o'clock, when Miss Gertrude S. Offutt, daughter of Mr. David Offutt, prominent in business circles at the National Capital, and Mrs. Offutt, and Mr. C. Marion Rhodes, son of Mr. and Mrs. Robert P. Rhodes, of Troy, Ala., were married at the Congressional Church.

The Rev. Dr. L. E. Purdum, pastor of the church, officiated and members of the family and a few friends were present. The bride wore a stylish traveling gown of blue voile and a hump hat of the same shade. Immediately after the ceremony, Mr. Rhodes and his bride took the boat for Norfolk and Old Point Comfort.

Mr. and Mrs. Rhodes will return to Washington next week, en route to Troy, Ala. The bridegroom is a well-known cotton planter and a manufacturer of lumber, and his parents are related to the oldest and most influential families of Alabama.

The patronesses for a lecture at Bar Harbor, Me., on aviation, to be given by Mrs. Elizabeth Hatt Gregory at El Sinoire, the home of Mrs. Henry F. Dimock, on August 7, include Mrs. John Loudon, wife of the Minister to the Netherlands; Mrs. Joseph Pulitzer, Mrs. Victor Cushman, Mrs. H. H. McCormick, of Chicago; Mrs. Harold Williams, and Mrs. Nicholas Anderson, of Washington.

Washington society was much interested in the wedding Thursday at Manchester-by-the-Sea, Mass., of Miss Gladys Munn, daughter of Mrs. Charles A. Munn, of this city, and Mr. Charles Minot Amory, son of Francis I. Amory, of Boston, which took place at the bride's summer home in the presence of the immediate relatives of the bride and bridegroom.

The bride wore a reception because Mrs. Munn has suffered from a serious illness, from which she is just recovering.

The only attendant of the bride was her niece, Pauline Munn, three years old, who acted as flower girl. Charles A. Munn, Jr., was his brother's best man. The Rev. Sherrard Billings, of Groton School, was the officiating clergyman.

The ceremony took place in the parlor of the house, which was a bower of white and pink roses, picked on the estate. The columns in the rooms were bedecked with similar roses.

Mr. and Mrs. Amory went later to New York, and will sail tomorrow for a six-week European trip. They will return in September, and will spend the autumn on the North Shore with Mrs. Amory's mother.

Among the Washingtonians sailing for Europe today are the Misses Patten, who have closed their residence in Massachusetts Avenue, and Lieut. Commander and Mrs. Archibald Davis, who will also spend the summer abroad.

Miss Breckenridge, who has spent the early summer with her father, Gen. Joseph C. Breckenridge, at their home in Wyoming Avenue, left the Capital yesterday for a series of visits. She will go direct to Lake Quam, Mass., to remain for a month, and will then go to Canada to visit.

JESSIE WILSON'S FIANCE FAITHFUL TO DUTY
AND CUPID.

Francis B. Sayre at His Desk in District Attorney's Office.

New York, July 18.—There is a young law student at work in District Attorney Whitman's office who appears to be working harder than ever before, much to the disappointment of the fellow-workers who watch him daily, expecting to find him neglecting his duties and staring, moon-eyed, into space. He is Francis B. Sayre, who will some time next November take as his bride Miss Jessie Wilson, daughter of the President, District Attorney Whitman, who has a high regard for young Sayre, has aided the cause of Cupid by allowing him to remain away from his work on Saturday. This gives Sayre an opportunity to make regular week-end trips up to Cornish, N. H., where Mrs. Wilson and her three daughters are spending the summer. One thing about which Sayre is loath to let the public know is the fact that after he has finished all his correspondence and handed it to an office boy to mail, there is each day one letter that he never fails to hold back, stamp, seal, and mail himself. Although no one has caught a glimpse at the name and address on any of the envelopes that hold these letters, sporting members of the District Attorney's staff are laying odds that the addressee is summing at Cornish, N. H.

and is now engaged on a bust of Longfellow for the city of Cambridge, Mass.

Mr. and Mrs. Montgomery Blair have leased the Cutting estate, "Wee Bush," at Newport, R. I., and will go there shortly for the summer.

Mr. and Mrs. Henry Jay Staley will sail for Europe today on the new Hamburg-American liner Imperator for an indefinite stay. Their time will be spent in England, France, and Germany. Mr. and Mrs. Staley closed their Kennewick apartments in April, and have since that time been living at Congress Hall Hotel.

Mr. and Mrs. Simon Wolf, accompanied by their granddaughter, Miss Marjorie Wolf Cohen, have gone to the White Mountains for the remainder of the summer.

Dr. and Mrs. John B. Nichols and Mr. Howard G. Nichols, have left for a tour of Europe.

FIGHT FOR FIVE-CENT FARE.

Clarendon and Ballston Residents Will Take Matter Up.

Members of the Clarendon and Ballston Service Association will meet next Thursday evening at the home of a member in Ballston to plan the next move in the campaign for a straight five-cent fare for commuters' rates between Washington and the two Virginia towns in question.

The rates now are 10 cents each way. Members of the association also feel that the present service is inadequate, that the schedule is too slow, that the cars are insanitary, and that they should get transfers to other points in Washington.

They also protest against the lax methods of operating the draw of the Highway Bridge, over which the cars of this line run. Before their meeting on Thursday a committee will make protest regarding this last matter to the War Department.

Residents of Clarendon and Ballston will take the matter of rates up with the Interstate Commerce Commission, and have announced that two lawyers already have offered their services.

The Clarendon members of the association will gather at the station in their town at 7:30 Thursday evening and will walk to Ballston to attend the meeting.

MEDICAL SUPERVISION BULLETIN IS ISSUED

Subjects Treated Have Vital Relation to Nation, Says Dr. Claxton.

No educational movement in modern times has had more vital relations to the children, to the homes they represent, and to the nation, than medical supervision of school children and the general hygienic movement it typifies.

The bulletin is an annotated bibliography of medical inspection literature during the past four years. It was compiled in the division of school hygiene and sanitation. It shows health conditions among school children in a number of different localities, thus making it possible for one community to find out readily what another community similarly situated has accomplished in solving health problems in the schools.

The most significant reports that have been presented for various typical localities are summarized for reference.

Among the topics treated are: Medical inspection of the eyes, ears, nose, and throat; dental clinics; training of school nurses; salaries of school medical inspectors; medical inspection records, etc.

In his introduction Dr. Claxton points out that "although the work of medical inspection began in the United States less than twenty years ago, we are now in the midst of the most rapid development of this part of the public educational service."

According to the latest available statistics there are 47,000 lace makers in Belgium, all of whom work at their homes. To this number should be added about 2,000 girls and women in the government and religious schools who are learning to make lace.

"I am an old man—and many of my troubles never happened."—ELBERT HUBBARD

THE white hair and wrinkled faces of our busy men and women tell of doubt, fear and anxiety—more than disease or age. Worry plays havoc with the nervous system—so that digestion is ruined and sleep banished. What oil is to the friction of the delicate parts of an engine—

DR. PIERCE'S
Golden Medical Discovery

Is to the delicate organs of the body. It's a tonic and body builder—because it stimulates the liver, in vigorous action, sends the stomach to assimilate food—thus enriching the blood, and the nerves and heart in turn are fed on pure rich blood. Neuralgia is the cry of starved nerves for food. For forty years "Golden Medical Discovery" in liquid form has given great satisfaction as a tonic and blood maker.

Now it can be obtained in tablet form—from dealers in medicines—or send 50 one-cent stamps for trial box. Write R. V. Pierce, Buffalo.

DR. PIERCE'S PLEASANT PILLS
Relieve constipation, purify the blood,
and "keep the bowels moving."
